Financial and operational performance

Revenue from Customers

Record revenue for the 1H26 of \$48.2 million, up 30.7% over the prior comparative period (**pcp**), is underpinned by the successful acquisitions made over the past few years, and their integration.

Australia and New Zealand were up \$11.1 million, with the recently acquired G&S Technologies and Onix accounting for \$9.4 million of that growth (net of the \$1.2 million of eliminated intercompany revenue between Austco NZ and G&S). Organically Australia and New Zealand grew \$1.7 million in 1H26, being up 10%.

North America recorded strong organic growth, up 37%.

Software and SMA revenues increased 9% to \$5.0 million over pcp.

Directors' Report

Gross Margins on revenues from customers

Our gross margins at 52.2% experienced an increase compared to pcpc of 51.1%, which is a strong outcome given 1H26 includes a full contribution from the newly acquired G&S which is a lower gross margin business.

Showing the operating leverage of our business model, with increasing revenues and achieving a slight increase in gross margin percentages translating to a 34% increase in gross margin dollars the pcpc.

Indirect Cost Base

Overhead expenses increased 23.6% to \$16.9 million in 1H26, primarily reflecting the inclusion of acquired businesses. Importantly, overhead growth of 23.6% was well below revenue growth of 30.7%, demonstrating the Group's disciplined cost management and the increasing scalability of the business. Investment in Research and Development continued, with no material M&A transaction costs incurred in the period.

EBITDA

EBITDA was up 60% to \$8.3 million over the pcpc of \$5.2 million, driven by strong revenue growth and improving operating leverage.

EBITDA margins continued to improve, increasing from 14.0% in 1H25 to 17.1% in 1H26, an expansion of 310 basis points. This demonstrates the benefits of scale, disciplined cost control, and the increasing contribution from higher margin acquired businesses.

Net Profit after Tax

Net Profit After Tax (NPAT) for 1H26 was \$4.7 million, up 61.7% from \$2.9 million in the prior comparative period.

The effective tax rate for the period was 24.5%.

Basic earnings per share increased to 1.283 cents from 0.808 cents in 1H25.

Directors' Report

Unfilled Contracted Revenue

Austco has continued for the last 6 months to replenish the Unfilled Contracted Revenue (UCR) book at the same rate as recording record revenue results. The UCR stands at \$47.2 million at 16 February 2026, a level consistent since August 2024.

UCR represents confirmed contracted orders from customers that have not yet been filled and, as such, no revenue recognised.

Software and SMA revenues comprise 18.5% (\$8.6 million) of our Unfilled Contracted Revenue highlighting the vital role it will play in driving our company's growth and success.

Cash and Working Capital Position

Cash was \$15.2 million at 31 December 2025, up \$0.7 million from June 2025. Austco Healthcare is debt free. Cash generated from operating activities of \$9.2 million has funded contingent consideration (acquisition earnouts) obligations of \$6.0 million, our continued investment in R&D (\$1.1 million) and allowed for our expanded working capital needs.

Dividend

No dividend has been declared, to allow the funding of organic and inorganic growth and the acquisition earnout payments.

Research & Development

We maintained our investment in research and development for the period by outlaying \$2.5 million (of which \$1.1 million was capitalised), up slightly on the outlay of \$2.3 million for the pc (of which \$0.9 million was capitalised).

Rounding of amounts

The Group falls within ASIC Legislative Instrument 2016/191, and in accordance with the class order amounts in the Directors' Report and Interim Financial Report are rounded to the nearest thousand dollars, unless otherwise indicated.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

Note 4. Segment Information (continued)

Results of Segment

Segment revenues and expenses are those directly attributable to the segments and include revenue and expenses where a reasonable basis of allocation exists. The Board assesses the performance of the operating segments based on a measure of adjusted EBITDA. This measurement basis excludes the effects of expenses from the operating segments such as depreciation, amortisation, net interest and impairment to non-current assets which is disclosed.

Inter-segment pricing

Segment revenues, expenses and result include transfers between segments. The prices charged on intersegment transactions are the same as those charged for similar goods to parties outside of the Company. These transfers are eliminated on consolidation.

Note 7. Intangible assets

The Group capitalises costs for product development projects. Initial capitalisation of costs is based on management's analysis that technological and economic feasibility is confirmed once a product development project has reached defined milestones according to an established project management model. In determining the amounts to be capitalised, management makes assumptions regarding the expected future cash generation of the project, product life cycle and expected period of benefits.

The Directors of the Group are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
